## 1 About this datasheet

This datasheet provides all relevant

- $\mathrm{c}^{2}$ device data and
- mounting dimensions on the basis of drawings

This datasheet does not describe the whole functional range of the coin changer currena $\mathbf{c}^{2}$ or HENRI service tool. In order to be able to use the whole functional range of the devices safely as well as to configure all possible functions, all short reference guides and descriptions for the NRI changer currenza $\mathbf{c}^{2}$ and the HENRI service tool must be read carefully (PDF download at www.craneps.com, "Support").

## Additional technical documentation

Apart from the datasheet you already have, there is further documentation for the currenza c ${ }^{2}$ and service module, e.g. about service work or configuration. All product descriptions are available as PDF at www.craneps.com, "Support".
