

Delta Power Supplies

A wide range of high reliability power supplies with high efficiency and low working temperature. Available in different compact size and characterized by light weight.

Features

- Universal AC input range from 85Vac to 264Vac without power de-rating
- Full Aluminium casing for light weight and corrosion resistant handling
- Easy to wire connection to terminals
- High MTBF > 700,000 hrs. as per Telcordia SR-332
- Overvoltage / Overcurrent / Over Temperature Protections
- Expected lifetime: 10 years
- 2 year warranty

100W 12V

100W 24V

150W 12V

150W 24V

Prima Power Supplies

- Industry standard
- AC input 88-132Vac or 176-264Vac (switchable)
- +5V, 3~15 Amp, +12V 4 Amp, -5V 1 Amp or +24V 4 Amp
- CE, TUV and UL approved
- Easy start up
- Green "power on" LED
- Overload protected, built in EMI filter
- Maximum noise minimization by built in high speed diode
