

SUZOHAPP unveiled the future of payment management solutions at Retail Expo

OUDE-BEIJERLAND, THE NETHERLANDS, May 15, 2019 - SUZOHAPP – a global market leader of software and hardware payment systems and cash management solutions – reported a successful participation at the Retail Expo that took place on May 1-2 in London, UK.

SUZOHAPP demonstrated its wide range of hardware, software and back-office systems that interlink to provide a complete, customer-centric solution. In particular, SUZOHAPP reported strong interest for its **CashComplete™ SPS-700 & SPS-800 Smart Point of Sale Solution**. This is a fully automated POS recycling solution which enhances cash payments at point of sale by minimizing manual cash handling at check-out lanes. Another highlight of the SUZOHAPP stand was the **SDS-760 Smart Deposit Solution**, a high-speed back office cash deposit solution, which processes deposits fast, while ensuring note processing accuracy and reducing risk of robbery.

"We have channeled our knowledge and experience in creating these next-generation solutions," commented Steve Fitton, SUZOHAPP Sales Director UK & IE Solutions. "They are simple to integrate, operate and maintain. The feedback we received was excellent."

SUZOHAPP also introduced its brand new software **VaultConnect™** at the Retail Expo. VaultConnect™ brings offline cash storage into full view, allowing users to monitor their true cash positions and incorporate all available cash into daily operations. Thus, users now have a complete overview of where their cash is in use and can better manage their business. This goes hand-in-hand with the **CashComplete™ Connect - Retail Edition™**, a sophisticated cloud-based payment management platform which automates the entire retail payment process, providing real-time visibility, advanced analytics, reconciliation and general ledger integration. This platform allows users to fully monitor their cash and generate accurate reporting for complete visibility of the cash cycle.

"We are driving the future of cash payment services," noted Simon James, SUZOHAPP Managing Director – UK & Ireland. "Our systems connect hardware and software capabilities so that users receive unique benefits. We thank everyone who took the time to come and see us at the Retail Expo."

About SUZOHAPP

SUZOHAPP is a technology company providing software and hardware for cash handling automation and self-service solutions to more than 25,000 customers throughout the world. SUZOHAPP's technology enables automation for customers operating in a variety of end markets, including retail, transportation, gaming, banking, vending and amusement.
