

CashComplete™

Get Connected to Your Business

50% increase in
efficiencies

How is Your Cash Managed?

- ▶ Automate Cash reconciliation
- ▶ Increase Cashier efficiency
- ▶ Transform Customer Service
- ▶ Streamline Operations
- ▶ Increase Security

Cash Management You Can Count On

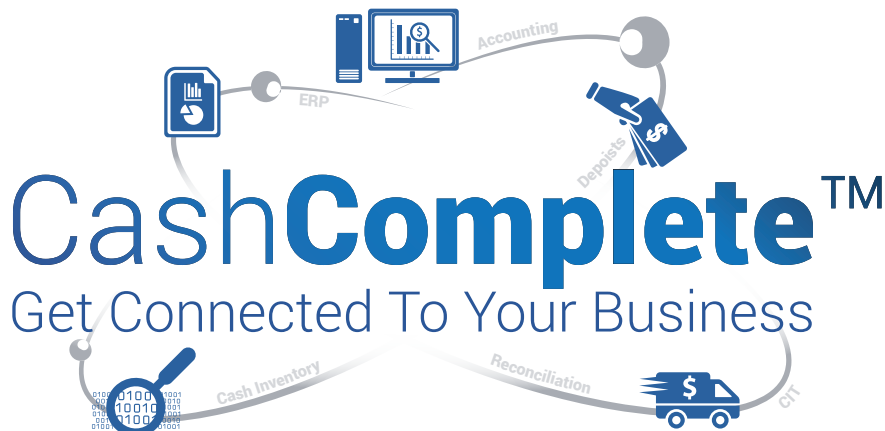

Leveraging our solutions into your business improves operational efficiencies. The combination of our unified software intelligence and leading processing technologies gives you superior results and elevates your cash management operations.

► Automate Handling

Eliminate all daily tasks from counting, managing till content, reconciliation and reporting in-store cash, which allows the staff to be deployed into higher value activities. Our on-site software coupled with our cash handling solutions together provides full visibility and accurate reporting of cash cycle.

► Simplify Operations

All stages of operations become more efficient by introducing operational automation and cash recycling. CIT pickup services, administrative and cash demand variation fees are reduced with our solution.

Financial and Operational Control

Our CashComplete™ software is the ultimate solution for superior financial and operational control of cash. The Management software can be shared by local departments for faster operations and maintenance. The Enterprise program of CashComplete™ software is ideal for central monitoring and connectivity with external store systems for higher automation.

Our scalable CashComplete™ solutions allow you to gain full control and get the most out of your cash handling solutions.

► ERP Integration

Reports daily balances and accounting

► POS Balancing

Automatic reconciliation of daily balances through Point of Sale (POS)

► Financial Control

Real time transaction monitoring

► CIT Integration

Integrate our solutions to CIT management systems for fast order requests and bank deposits

► Optimize Cash

Sharing insights into your cash cycle can be used for cash order planning to ensure the right level is always on hand

► Maximum Uptime and Service

Real time device and event monitoring to ensure maximum uptime

Protect and Secure

Count, verify and secure cash at the point of sale to protect against internal and external theft and eliminate staff errors. This keeps cash exposure to a minimum and protects the staff.

Achieve 99% counting accuracy and halt cash losses in your business due to these primary sources of fraud:

- Employee/Internal Theft (34.5%)
- Administrative and paperwork errors (16.5%)
- External Theft

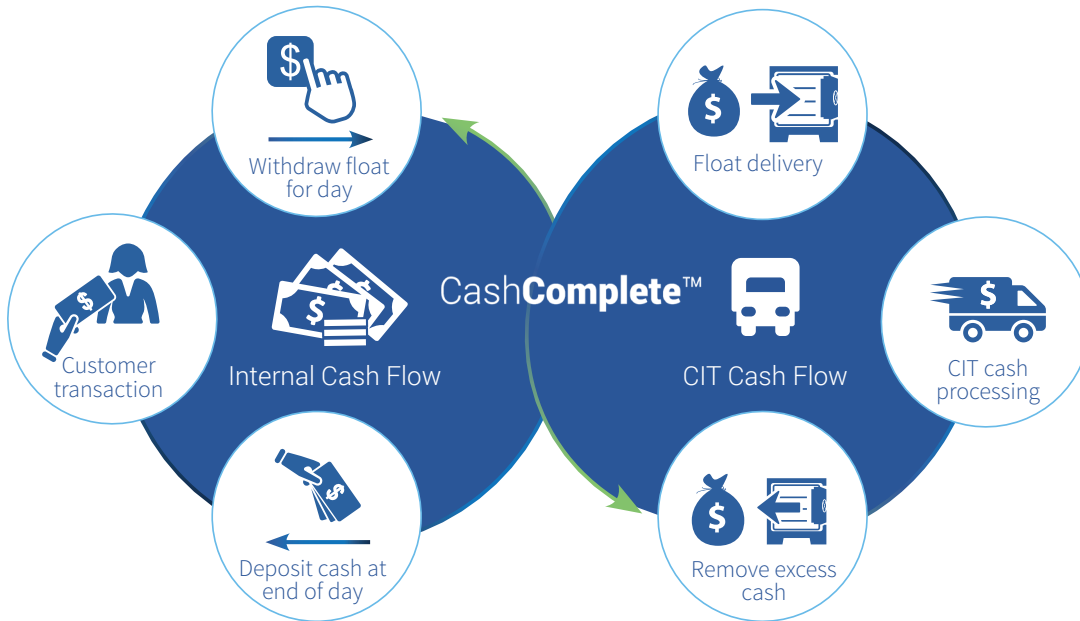

Cash Handling Cycle

The Software that Completes the Cash Handling Cycle

Transform your cash handling into a complete solution where you receive real-time data of cash flow from your computer and/or mobile device whenever you need it.

Our software platform is in the middle of the cash cycle giving you a complete overview of the cash flow. You are able to see details of internal cash flow and can optimize the deliveries of cash and CIT pick ups. For full automation it is possible to integrate the software to CIT cash management systems.

► Improve Cash Flow

CashComplete™ software provides accurate and efficient management of in-store cash handling requirements allowing you to deposit surplus cash into your bank or reinvest into new opportunities. Our enterprise software programs make it simple to monitor your inventory position in real time across your organization.

18% MORE CUSTOMERS SERVED DURING PEAK HOURS

The CashComplete™ solution decreases transaction time by increasing cash handling efficiency. Inefficient customer service leads to a staggering 10% customer loss.

Manage Your Business

The CashComplete™ solution will help you manage your cash flow and working capital with reporting and connectivity on the retail and banking ends of your business to monitor operations, employees and devices. Our system can balance cash in real time, track and audit users, and visualize cash ins and outs.

CashComplete™ delivers excellent ROI for its customers. While results vary by operating factors, some of the most common areas where ROI is generated:

- Reduce Cash room FTE hours
- Reduce Cashier FTE hours
- Reduce CIT fees
- Reduce Cash handling fees
- Reduce Cash variation costs
- Reduce Cost of cash on hand

CashComplete™

Solutions Showcase

The Complete Software Solution

No matter what device configuration you need, our CashComplete™ secure centralized platform covers all bases. The platform receives transactions, content and operational information from all devices. We can easily integrate with operating systems allowing users to remotely manage multiple devices and supervise and monitor their solutions across the entire installed network.
