

Display PRO

Smart Display for a Variety of Images and Videos

This contemporary display has been specifically designed for flexible end of bank signage applications. The slimline signage has a small footprint and the display hinges open for servicing. The display features a premium 42" FHD industrial LCD panel with toughened glass for screen protection. A decorative edge lit acrylic bezel can be added as an optional extra to create a more dynamic display.

There are three options available for displaying content:

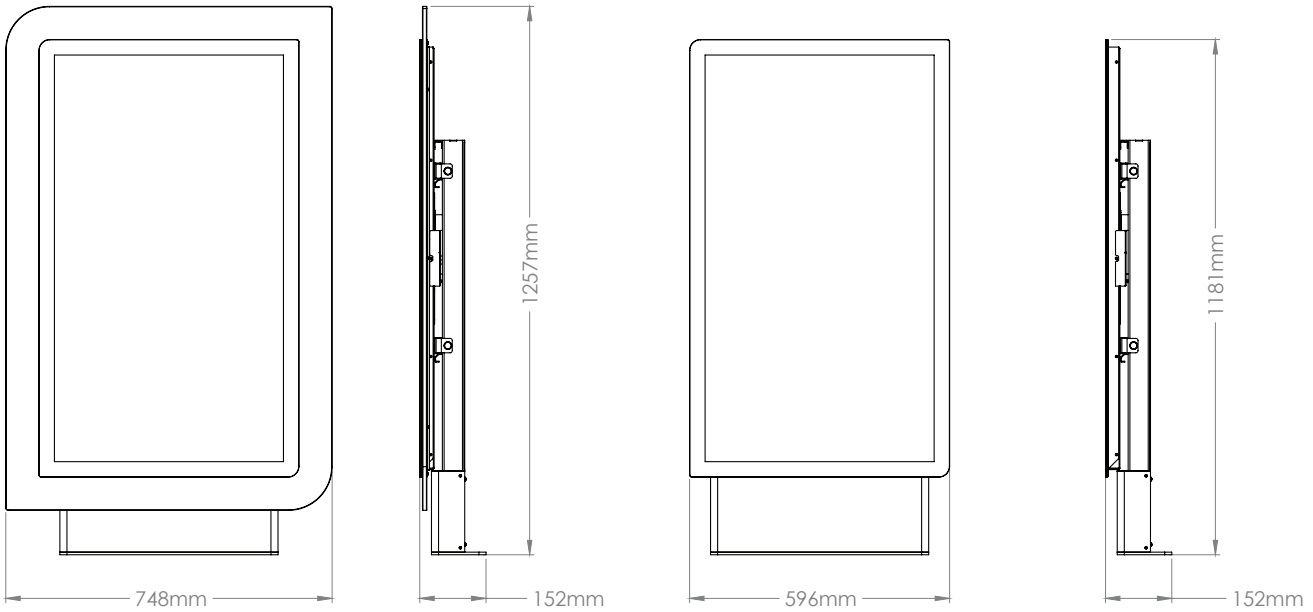

- ▶ Standalone – USB content upload
- ▶ Network – Android media player based (Ethernet or WiFi)
- ▶ Allows integration of application or web based Content Management System (CMS) for remote (or local) content updates and management
- ▶ Local Venue Scheduling of content available, via network or USB
- ▶ External Input – Wide range of display inputs to use with customer's own media player if CMS already in place.
- ▶ Local Venue Scheduling of content available, via network or USB
