Personal Protection Line

Keep Your Staff and Customers Safe and Meet Guidelines to Reopen

Temperature Readers
NON-CONTACT INFRARED THERMOMETER
Part Number: 92-2693-00

Meet new government standards in your small-scale operation and take accurate temperature readings without spreading additional germs with this one second, non-contact infrared thermometer. Ensure the safety and health of your staff and customers by instantly checking every person coming through your door with this noninvasive step.

- 1-Second Measurement Time
- Non-Contact Infrared
- 32 Record Memory
- Large Screen Display

- High-Temperature Alarm
- Display Range: 95°F (34.8°C) – 108.5°F (42.5°C)
- Accuracy: ±0.36°F (0.2°C)
- Resolution: 0.1°F/°C

In the human body mode, this thermometer can display the temperature results and prompt with different indicative warning colors for immediate recognition as follows :
- Green/Healthy: 89.6°F (32.0°C) -99.32°F(37.4°C)
- Orange/ Above Average: 99.5°F(37.5°C)-100.2°F (37.9°C)
- Red for High/Danger: 100.4°F(38.0°C) -109.2°F(42.9°C)
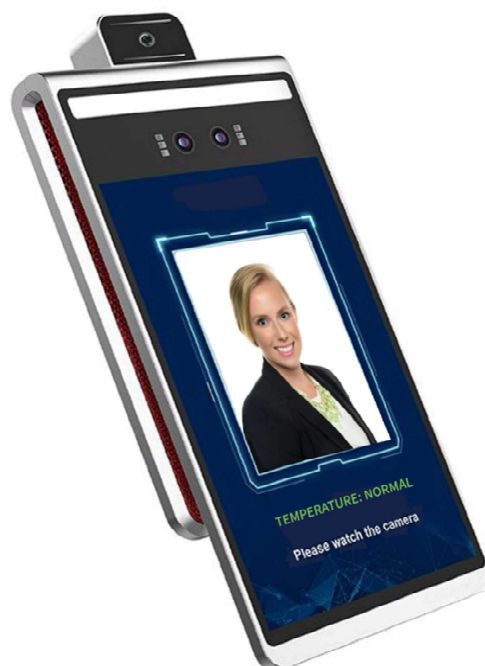

Specifications Met: FDA Listed, CE Marked, FCC Approved

Requires 2 AA batteries not included

Temperature Readers
FACE-DETECTION THERMO-SENSOR MODULE
Part Number: 92-2700-00

Use this device to **take the temperature of every entrant into your facility with no additional hassle**. The temperature measuring unit offers non-contact full-frame infrared instant temperature measurement. This device can be widely used in different scenarios to include access control areas, face detection gates, office buildings, etc. and can alert staff if high temperatures or exceeded occupancy thresholds have been reached. Pair with the access gates (coming soon!) for a completely automated temperature regulation solution.

- ≤500 Millisecond Measurement Time
- Instant Acoustic and Light Alarm for Abnormal Temperatures
- Can be pole-mounted (M5 Screws not included), wall-mounted or desktop-mounted
- Android Processor
- 16GB Storage
- 5.8" Width (147.2mm) × 1.1" Depth (30mm) x 12" Height (303mm)

- Input: 12V DC, 2A
- Power Consumption: 23W
- RJ45 Ethernet Port, WIFI, Bluetooth
- Data storage for identity, body temperature and face photos allowing for traceability
- Accuracy: ±0.9°F (0.5°C)
- Recommended distance: 1 ½ ft – 4 ft. (0.5m - 1.2 m)

Default Abnormal Temperature Threshold is set to 99.8°F or 37.4°C but can be modified by the user.

Expedited Shipping Available!   (3-4 wk delivery)

Temperature Readers
TEMPERATURE-CONTROL ACCESS GATE

This self-service access gate integrates infrared thermometer technology with automated access control and occupancy measurement. Powered by a high-performance infrared thermometer and biometric system, it provides **near-instant recognition processing with high precision accuracy**. The temperature measurement modules provide **accurate, non-contact body temperature measurements** for epidemic prevention while also serving as a reliable alternative for manual identification and occupancy control depending on what parameters and restrictions are configured. Aesthetically designed for casinos and Family Entertainment Centers, these **high-quality gates are ultra-reliable and can process thousands of entrants per day.**

Single Entry	Dual Entry

- Includes: (1) Left Gate, (1) Right Gate and (2) Face-Detection Thermo-Sensor Modules (Part Number: 92-2700-00)
- Dual-Entry (shown above) available at additional cost
- **Temperature Measurement: ≤500 ms**
- **Throughput rate: ≤3s per entrant**
- Abnormal temperature alarm and access denied
- **Maximum Occupancy Limit programming for automated social distancing**
- Authentication Methods: Card Reader, QR Code, NFC Optional
- Entry lanes measure ~2 ft wide (200 mm)
- Accuracy: within 0.9°F/0.5°C

- Recommended distance: 1 ½ ft. to 4 ft. (~0.5 to 1.2m)
- Data Output: Temperature Data in Full Range in either Fahrenheit or Celsius
- Android Processor
- Core: ARM hexa-core,64-bit processor, 2.0GHz,2GB RAM (4GB opt.)
- 16GB Storage for identity and traceability
- For indoor use only
- Power Input: 220V+10%～-15%, 50Hz±4%
- Power Consumption 200W
- Materials: Stainless Steel and Tempered Glass
- UL Approved

Personal Protective Equipment
TOUCHLESS HAND SANITIZER DISPENSER
Part Number: 29-0417-00

This touchless hand sanitizer dispenser is ideal for high-traffic areas and is made to provide long-lasting strength and use. The 1200 ML dispenser can be used with any bulk foam or gel hand sanitizer or can be used as a soap dispenser. It is ADA compliant in force and one-handed operation, making it accessible to people with disabilities. Made of durable ABS plastic construction that is resistant to chemicals, heat and impact, it is also equipped with a site window to easily monitor the soap level and a drip tray to ensure floors remain clean. The dispenser is quiet, powerful, and battery-operated.

- Works with your own bulk foam/gel hand sanitizer or soap
- Large 1200ml capacity requires less frequent refills
- Automatic, Hands-Free Operation for improved hand hygiene

- Includes drip tray
- Dispenser is equipped with lock and key to prevent vandalism
- Requires (4) C Batteries (not included)
- ADA Compliant

Personal Protective Equipment
ZOONO GERMFREE24 HAND SANITIZER

Not all hand sanitizers are created equal. Most sanitizers work for only 2 minutes at a time. Zoono GermFree24 Hand Sanitizer works by safely bonding to skin, giving guests and staff 24 hours of protection, providing them and extra feeling of safety and security while in your establishment and even after they depart. Spray GermFree24 directly on to the hands until the hands are moistened. Rub hands together to dry. On application hands feel silky and moisturized without leaving a visible film or coating. A single application of GermFree24 will act like a glove, providing an invisible bond to the skin for 24 hours without the need for reapplication. GermFree24 does not rub off and will remain active on the skin's surface for up to 10 wash / dry cycles using a regular towel.

- Non-toxic, non- drying
- 24 Hour Protection on Skin
- Kills Germs Continuously
- Active Ingredient: Benzalkonium which eliminates 99.99% germs and even improve moisture on the skin in <15 seconds!

- Safe to handle and store
- Will not stain clothing or skin
- Odorless
- FDA and EPA Approved to fight COVID-19
- Meets EN14476
- 150mL Pump Bottle

Personal Protective Equipment
SURGICAL MASKS
Part Number: 92-2691-00

Our 3-Ply Face Masks are **medical grade, disposable surgical face masks**. Whether you are preventing infection or protecting others from your sickness, these masks are made for you. The three layers of this mask are designed to filter out allergens and other airway agitators. Featuring ear loops and a malleable nose wire, these masks are breathable and comfortable.

- Medical grade
- Disposable
- >95° Bacterial Filtration Efficiency
- Elastic ear loops for variable head sizes

- Wire-reinforced nose border for snug fit
- 3-Ply
- Filter layer allows for easy breathing
- 50 per pack (not individually wrapped)

Do not use mask if it is damp or for more than a single use. Masks alone cannot protect from COVID-19 but do help meet regulatory guidelines for locations looking to maintain operations.

Disclosure: Not Sterile

Sanitizing Equipment
ZOONO MICROBE SHIELD SPRAY

Zoono is colourless, odourless, nonleaching, environmentally safe, noncorrosive shield to protect your surfaces from transmitting viruses and bacteria. Zoono Microbe Shield is water-based and does not contain alcohol. When applied to a surface, Zoono leaves behind a mono-molecular layer that permanently bonds to the surface. The product contains a molecule that, once dried and hardened, creates a surface of microscopic pins and needles that can pierce and destroy harmful organisms for between 30 to 60 days after only one application. It has been confirmed by the EPA for use against SARS-CoV2 (COVD-19) on hard, non-porous surfaces. For plastic and painted surfaces, spot test on an inconspicuous area before use.

- Active for up to 30 days
- Kills 99.99% of Germs
- Non-Toxic for humans and animals
- Alcohol-Free
- Won't wash off with normal cleaning
- Helps prevent superbugs including SARS-CoV-2 (COVID-19)
- Non-staining / Non-leaching
- Suitable for wide range of surfaces

- Food safe / Environmentally safe
- Safe to handle / Safe to store
- Does not require mixing
- FDA & EPA Approved & Health Canada Authorized
- 250 mL bottle with trigger
- Certifications, lab reports, studies and experts, both medical & scientific, available upon request

Sanitizing Equipment
ISOPROPYL ALCOHOL, 1 PINT
Part Number: 29-0393-00

99.8% pure anhydrous (containing the least water possible and no denaturant) isopropyl alcohol is excellent for electronics cleaning and ensuring a sanitized surface. Avoid "bargain" alcohols for critical electronic cleaning which contain much more water, slows drying, can cause oxidation, and leave residues.

- 99.8% Pure IPA
- Non-ozone depleting
- 1 Pint (16 oz.) bottle
- >60% concentration for sanitizing

- No denaturant meaning no residue
- Non-corrosive for flux removal
- MDS Available

Specifications Met: ACS Re-Agent Grade, FED SPEC TT-1-735A (Amend 3, Notice 2) Grades A&B, ASTM D770-05
