

COIN COUNTERS & SORTERS

DTC-Series

Proven sensor technology,
highest reliability, extreme
accuracy

EXPLORE TRUE CASH HANDLING.

The latest DTC solution is designed to satisfy the market's need for reliable and modern cash processing. It is a strong performer in sorting and counting, as well as in rejecting foreign and damaged coins. Through the unique sensor technology, the solution offers outstanding accuracy, combined with reliable functions. Maximise the efficiency at the same time as you increase the accuracy, enabling you to focus on more profitable tasks.

The solution has the latest features such as a touch-screen display and a keypad for easy operation. This, together with the proven sensor technology and the reliable construction, ensures years of operating excellence.

KEY FEATURES

- ✓ **Reliable and Versatile:**
Design to fit in different working environments, such as banks, supermarkets, casinos, retail stores and other areas where cash is being handled.
- ✓ **Flexible choices:**
Choose the DTC model that best fits your requirements: DTC-1 for one denomination, DTC-6 for up to six, and DTC-9 for up to nine.
- ✓ **Several Sorting Options:**
The coin sorter can be equipped with bag holders as well as coin tube holders.
- ✓ **Heavy Duty Coin Sorter**
Counts up to 620 coins per minute and sorts them into boxes. If two denominations are similar in size, an optional second solenoid ensures optimal sorting.
- ✓ **Foreign Coin Detection:**
In addition to counting and sorting, the unit automatically rejects foreign or damaged coins and allows programmable batch stops for greater efficiency.
- ✓ **Connectivity**
The coin sorter has hardware ports ready for computer and a specific interface for optimal connectivity.
