

CashIO Gold Self-Service Payment Terminal (CRT)

Part Number: 96-2082-00

CashIO Gold is a versatile, flexible system with all the features needed to support casino operators at every level – right up to cashless gaming. Long lines at the cashiers mean increased machine idle time – and that hurts both your bottom line and your customers' satisfaction. Plus, all over the world, coinless and cashless gaming is gaining ground against the traditional coin-based systems. Since the CashIO Gold automates cashier operations, it not only reduces cash handling costs but also offers players improved service. It even allows the simultaneous use of banknotes, coins, and cashless media such as tickets and cards (TITO –ticket-in / ticket-out).

CashIO Gold Self-Service Payment Terminal (CRT)

Part Number: 96-2082-00

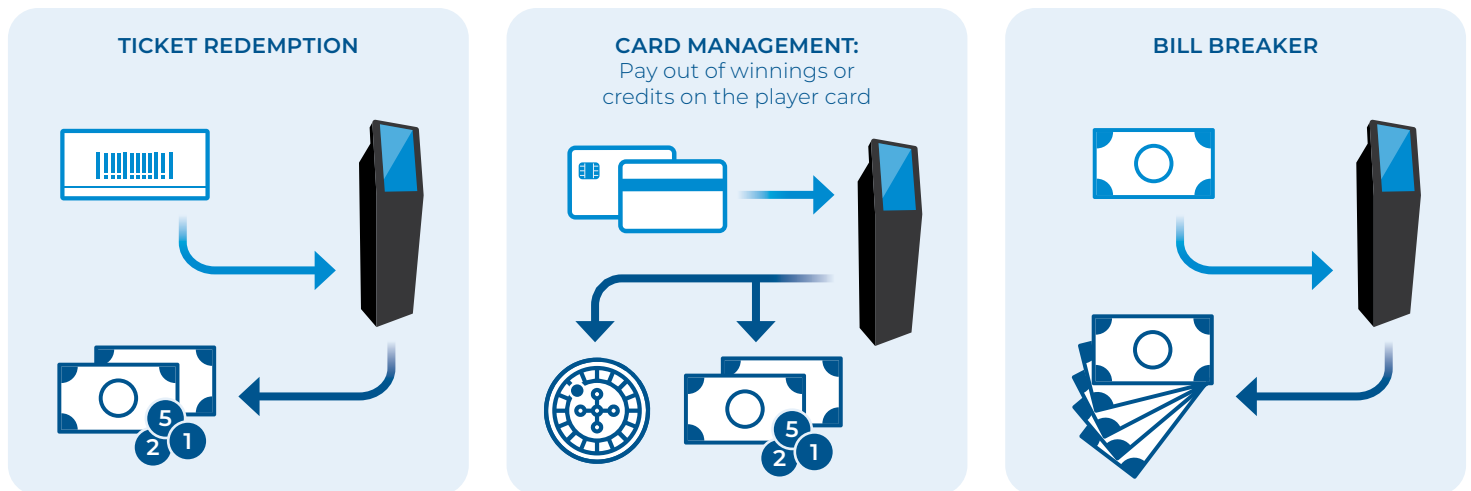

The CashIO Gold system offers maximum convenience and outstanding ease of use for customers. The gaming machine issues players a ticket representing their winnings. With the ticket, they can either move on to another slot machine or go to the CashIO Gold, where they can collect their winnings without standing in line at the cashier's cage. CashIO Gold is able to print tickets for the coin change during redemption transactions. This allows for optional coinless operation at the CashIO Gold.

All-in-One Cashless redemption and issuing payment terminal:

- Multi-medium interfaces
- Redeems and prints TITO/2D/QR tickets
- Card issuing, recharge, and redemption for Mag. stripe/ Chip/RFID/NFC cards
- Pays out card balances down to the cent with banknotes and coins
- Mobile bank transfers
- Multi-platforms payment (casino, route gaming, VLT, sports betting, bingo, pull-tab, lottery, etc.)

Operational efficiency and cost saving features:

- Coinless options: Change donation, Ticket redemption rounding, Ticket as change
- Ticket purchase with POS Debit transaction to optimize cashflow
- Face recognition and biometric login
- Jackpot payments in cash (W2G) or ticket
- User instructions provided via touchscreen with multiple language/multiple currencies
- Breaks large denomination banknotes into several smaller ones (configurable)
