Epic Edge
TITO Printer

## Your Old Printer Technology Just Got Edged Out

Featuring an unmatched 300 DPI print quality, a high-speed firmware uploading solution and a single interface board for all games, there is no question about it. Have an "Edge" over the rest with the most innovated printer on the market.

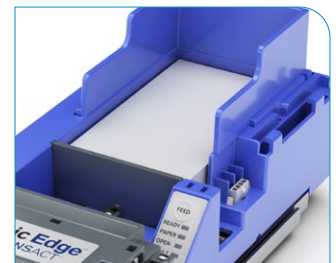

300 DPI
Featuring an unmatched 300 DPI print resolution, the Epic Edge improves ticket readability and acceptance by bill validators, all while enabling casino operators to print eye-catching promotional coupons and bonus tickets with Epicentral.

Speedy Firmware Uploading
Faster than ever, the printer has two additional high-speed interfaces to simplify firmware updates and graphic downloads.
A micro SD card updates the printer with no need to carry a laptop or turn off the slot machine.

One Printer for All Games
The Epic Edge is fully equipped with serial and USB interfaces that are all conveniently built into a single board.
This means you only need to inventory a single printer, for any game.

Eco-friendly Tickets
The "Edge" contains an adjustable ticket bucket that allows operators to use smaller, paper-saving tickets to work with ecological programs being implemented in casinos.
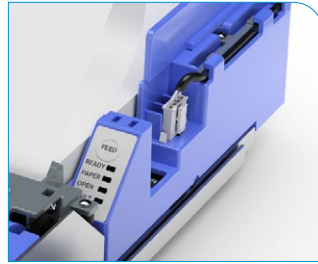

Epic Edge
TITO Printer
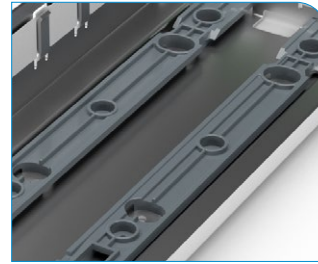

Additional Features

Patented Jam Free Bezel
Our TicketBurst™ technology prints and bursts each ticket before presenting the ticket to the player. This eliminates player interference, ensuring a jam free transaction and maximum up time.
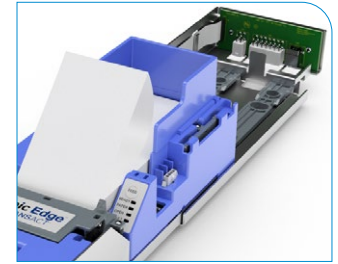

High Speed Connection
Our ServerPort™ enables value added apps, such as our Epicentral coupon bonusing system. Casino management systems that integrate Epicentral also connect to Epic Edge via the ServerPort, as will eTITO systems.

Color-Coded Chassis Rails
While the Epic Edge and Epic 950 coexist on the slot floor, different color rails in the outer chassis and other design differences ensure the Epic Edge printers install correctly.

Hot Swappable
Nobody wants to power down a game in order to swap out a printer. With the Epic Edge, the outer chassis with its game connection stays in the game, so there is no need to power down just to swap out a printer. Easy peasy.

Options

• Front bezel (internal or external)

• Standard printer holds 200 tickets. Ticket tray extensions increase capacity to 600 or 800 tickets. Tray extensions increase height to 4in (102.6 mm) and 5.5 in (140.7 mm)

• Master Programmer

Enclosure Options

• **Table Top Enclosure**
  Includes printer and power supply
  Dimensions (WxDxH):
  6.48 x 13.34 x 5.20 in / 164.59 x 338.84 x 132.08 mm

• **Under Table Enclosure**
  Includes printer and power supply
  Dimensions (WxDxH):
  6.04 x 14 x 4.47 in / 153.4 x 355.6 x 113.54 mm

Technical specifications

Dimensions (WxDxH)	4.46 x 11.25 x 2.66 in / 113.3 x 285.75 x 67.6 mm
Weight	3.8 lbs / 1.7 kg
Resolution	300 DPI
Print Width	2.44 in / 62 mm
Print Speed	5 inches per second / 125 mm per second
Interface	Single Board: USB, Serial, Netplex™
Power Supply	24 VDC: 2.2 Amps Maximum
Operating Temperature	41 to 140 F at 10 to 90% RH / 5 to 60 C at 10 to 90% RH
Storage & Shipping Temperature	14 to 122 F at 5 to 90% RH / -10 to 50 C at 5 to 90% RH
Print Head Life	43.45 miles / 70 km
Reliability	Less than .03% failures (3 per 10,000)
Memory Capacity	8MB RAM and 4MB Flash for printer operations
