## Instant Ticket Vending Machine

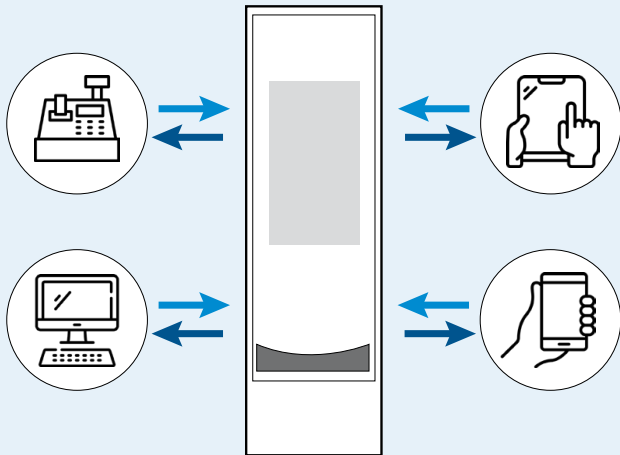

Cashless and mobile payments

Scratch Ticket Dispenser ccTalk interface

### Remote Monitoring and Management

The machine is equipped with remote management features that allow operators to monitor inventory levels, track sales data, get stock status alerts, and manage machine settings and software from a centralized location (PC, tablet, mobile phone). This helps optimize operations and maximize profitability.

### High Capacity

The modularity of the ITV machine enables you to choose from different dispenser options. It can host **up to 20 dispensers** (each one contains approx. 100 tickets)
