

V-Poster

Digital Signage Solution

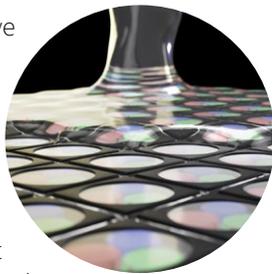

Maximize ROI with Mobile Technology

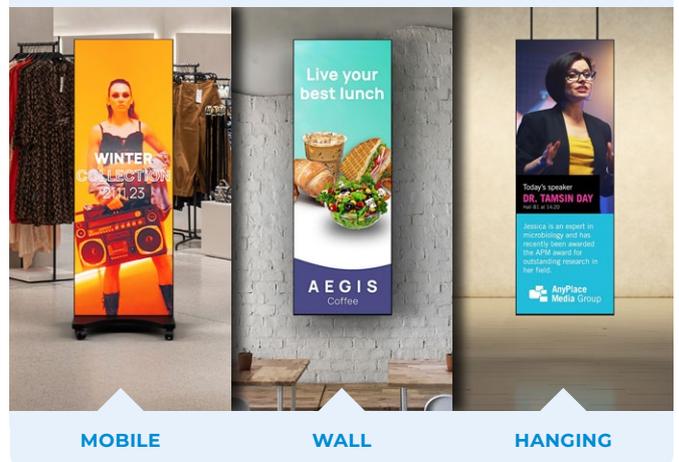

Don't tie down your investment with fixed location assets. The V-Poster is the perfect digital signage solution for ever changing spaces with sustainability in mind.

Built to Last

Glue-On-Board (GOB): This innovative technology seals the LED's with transparent epoxy glue. This protects the LED from any harmful accidents by making it anti-collision, waterproof, anti-UV and dust proof. The lifespan of the LED is also extended due to improved heat dissipation. A must in heavy footfall areas!

Three Mounting Methods

ENERGY EFFICIENT

LIGHT WEIGHT

DURABLE

SCALABLE

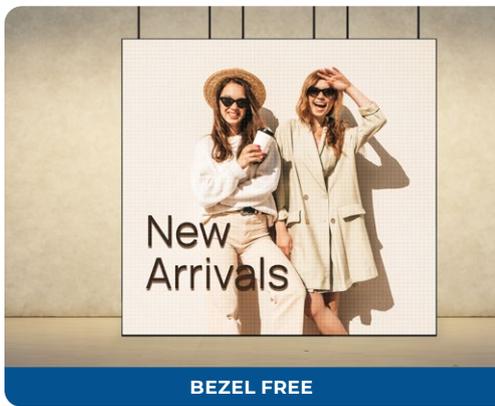

INTEGRATED SPEAKERS

CLOUD & APP MANAGEMENT

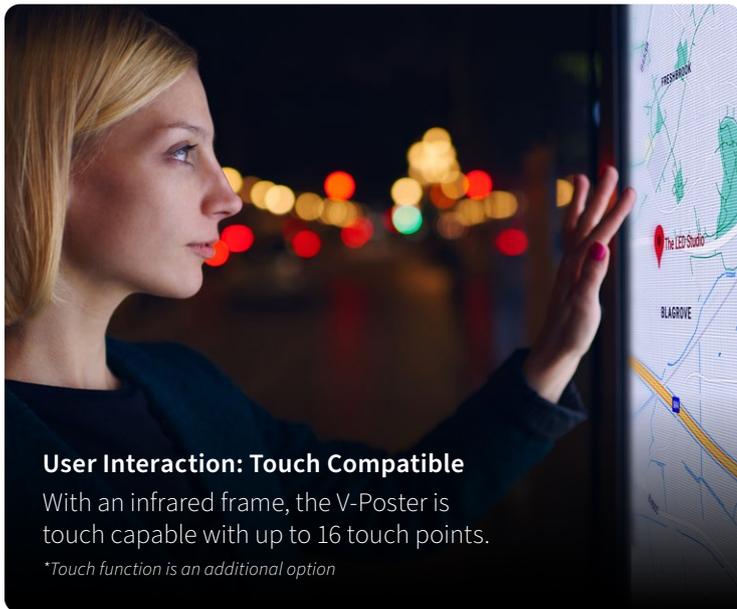

PLUG & PLAY
