

# RGB LED Light Strip

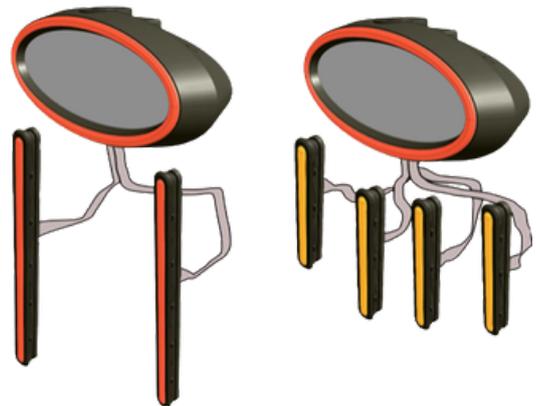

Light Up with  
Multi-Color Effects

The RGB LED Light Strip brings your gaming and amusement machines to life with vibrant, multi-color LEDs behind a sleek opaque bezel. It creates a dazzling light show on its own or can be paired with an RGB Xenon Topper to extend the effects seamlessly across your cabinet (the wire harness is sold separately).

## Key Features

- Vibrant multi-color LEDs behind a sleek opaque bezel
- Creates a dynamic, eye-catching light show
- Can be used standalone or paired with an RGB Xenon Topper
- Seamless lighting effects across the cabinet when combined with a topper
- Easy installation on any compatible machine
- Wire harness sold separately for flexible setup
- Enhances player experience and cabinet visibility
