

# V7 Coin Chute/Slide

## Key Features

### Configurable operational settings for international coinage

- Supports EUR and GBP coins

### Precision Coin Validation

- Patented V-notch sizing system ensures accurate coin recognition
- Hardened steel V-notch coin-sizing block rejects tiles and foreign coins, reducing revenue loss and machine downtime

1-year warranty included

### Enhanced Security Construction

- Thick hardened front plate shields the slide assembly from direct physical attacks
- Hardened steel buffer plate works with internal components to resist forced entry and impact

### Advanced Anti-Tampering Design

- Sliding stainless-steel gates protect internal mechanisms from tampering and provide long-term resistance to rust and corrosion
